USER ROLES

Admin:

- Manages employees, roles, and system settings**
- Views all reports and attendance data**
- Controls shifts and departments**

HR:

- Monitors attendance**
- Generates and exports reports**
- Reviews employee logs**

Employee:

- Records attendance using biometric scanner**
- Views personal attendance history**

Manager:

- Only View and manage certain department or company**

LOGIN PAGE INTERFACE

Steps to Log In:

1. Open the Biometric Attendance System.
2. Enter your registered email address in the Email field.
3. Enter your password in the Password field.
4. Click the "Login" button.

If the credentials are correct, the user will be redirected to their respective dashboard based on their role (Admin, HR, or Employee).

Login Notes:

- If login fails, verify your credentials or contact the system administrator.

Admin Section

Admin Dashboard Interface

After logging in, the admin will be redirected to the dashboard. This page provides an overview of the system's current status, including employee attendance and activity.

Admin Attendance Adjustments

1. Click "Attendance" or "Adjustments" from the sidebar menu.

3. Choose the date for the attendance record.

2. Select the employee.

Edit feature

Both Admin and HR can submit adjustment requests, but only the Admin has the authority to approve or reject them.

Manual Time Changes

T Test One

IT NRA MS-01 8:00 am - 5:00 pm

⚠ This employee has no existing attendance record for this day. Submitting this form will manually create a new record.

⌚ **AUTO-COMPUTED STATUS**
Status will be automatically determined based on the employee's assigned shift schedule and the recorded time-in / time-out.

⌚ **CLOCK IN** ⌚ **CLOCK OUT**

--:-- --:--

REASON FOR ADJUSTMENT *
e.g., Biometric error, Official business...

⚠ Reason is required. Please provide a reason before submitting.

Cancel Create Manual Record

If no record exists:

4. Enter the required details:

- Clock In (start time)
- Clock Out (end time)

If a record already exists:

5. Modify the incorrect time entries.

6. Provide a reason for the adjustment (required).

7. Click "Create Manual Record" to send the request.

The image shows a 'New Employee Registration' form with a red header bar containing the title and a close button. Below the header, the form is divided into several sections with labels and input fields. The 'EMPLOYEE ID' field has a placeholder 'e.g. 10001'. The 'FIRST NAME' and 'LAST NAME' fields have placeholders 'First Name' and 'Last Name' respectively. The 'MIDDLE NAME' field has a placeholder 'Middle Name (optional)'. The 'SUFFIX' field is a dropdown menu with 'None' selected. The 'GENDER' field is a dropdown menu with 'Select Gender' selected. The 'DATE OF BIRTH' field has a placeholder 'dd/mm/yyyy' and a calendar icon. The 'EMAIL ADDRESS' field has a placeholder 'Email'. The 'CONTACT NUMBER' field has a placeholder 'Contact'. The 'COMPANY' field is a dropdown menu with 'Select Company' selected. The 'BRANCH' field is a dropdown menu with 'Select a company first' selected. At the bottom right, there are 'Cancel' and 'Register' buttons. A large red sidebar is visible on the left side of the form.

System Settings (Sync Engine)

The screenshot displays the AV BITS Biometric Integrated Timekeeping System interface. On the left is a red sidebar with the 'Admin Panel' menu, including options like Dashboard, Attendance, Adjustments, Employees, Shifts, Holidays, Organization, Devices, Reports, and Administration. The main content area is titled 'System Configuration' and contains the 'Sync Engine' section. The Sync Engine is currently 'ACTIVE', as indicated by a green dot and a toggle switch. Below this, there are three status boxes: 'INTERVAL' set to '1m' (with a 'DEFAULT' button), 'LAST SYNC' at 'May 7, 15:13:16', and 'HEALTH MONITOR' showing 'Active (30s)' with a 'Last: 15:13:19'. To the right of these boxes are three buttons: 'Sync Data Now' (red), 'Sync Time Now' (grey), and 'Clear Logs' (grey). A curved arrow points from the 'Sync Data Now' button towards the right. Below the Sync Engine section is the 'Data Synchronization' section, which includes 'Shift-Aware Sync' (disabled) and a 'Default Sync Interval' set to '0 : 1 : 0' (HRS : MIN : SEC). A blue information box explains that enabling Shift-Aware Sync will adjust polling speed based on shift schedules. At the bottom right, there is a red 'Save Configuration' button. A status bar at the bottom left says 'All changes saved'.

1.. Locate the "Sync Engine" section.

2. Enable or disable the sync service using the toggle button.

Available actions:

- Sync Data Now – Manually retrieves attendance data from devices
- Sync Time Now – Synchronizes device time with the system
- Clear Logs – Removes stored system logs

How often the system pulls attendance logs from all

1. Locate the "Data Synchronization" section.

2. Set the Default Sync Interval (hours, minutes, seconds).

3. (Optional) Enable "Shift-Aware Sync" to adjust sync speed based on work hours.

4. Click "Save Configuration".

All changes saved

Save Configuration

Enable Shift-Aware Sync to automatically poll faster during clock-in/clock-out rush hours and slower during off-peak hours. This reduces server load while keeping attendance responsive.

System Settings (Attendance Rules)

Example:
Minimum Checkout Gap – Prevents accidental double scanning by requiring a time gap between check-in and check-out.

Steps:

1. Locate the Attendance Rules section.
2. Set the required time gap.
3. Save the configuration.

System Settings (Device Maintenance)

This section ensures that biometric devices remain synchronized and properly monitored.

Clock Alignment:

- Synchronizes device time with the system
- Prevents incorrect timestamps

Health Monitor:

- Checks if devices are online
- Uses ping intervals to verify connectivity

System Settings (System Housekeeping)

This section manages system maintenance tasks such as clearing logs.

Steps:

- 1. Enable "Log Maintenance".
- 2. Set the schedule (e.g., weekly).
- 3. Set the time for cleanup.
- 4. Save configuration.

This helps prevent system overload and maintains performance.
After making any changes:

- 1. Click the "Save Configuration" button.
- 2. Wait for confirmation that changes have been applied.

HR *section*

HR Panel

The HR module allows Human Resource personnel to monitor employee attendance, review records, and generate reports. Unlike the Admin, HR users have limited access focused on attendance management.

View Attendance

1. Click
"Attendance"
from the
sidebar menu.

The screenshot displays the 'Biometric Attendance' interface. On the left is a red sidebar with the 'HR Panel' menu, where 'Attendance' is highlighted. The main content area shows a header with the system name, date, and time. Below this are three summary cards for 'AVG HOURS', 'OVERTIME', and 'UNDERTIME', all showing '0.0h'. A filter section includes tabs for 'ALL COMPANIES', 'COMPANY 1', 'COMPANY 2', and 'TEST', along with search and dropdown filters for branches, departments, and status. The 'ATTENDANCE LOGS' table lists employees and their attendance status. A large black arrow points from the 'ABSENT' status in the table to the 'ABSENT' filter dropdown in the filter section.

EMPLOYEE	SHIFT	CLOCK IN	CLOCK OUT	LATE	REG HRS	OT	UT	STATUS	ACTIONS
TEST ONE IT · NRA	MS-01	-	-	-	-	-	-	ABSENT	
JO OLA ADMIN · NRA	ES-01	-	-	-	-	-	-	ABSENT	
MARY CAYA IT · TAYUD	MS-01	-	-	-	-	-	-	ABSENT	
ASDF ASDF TEST DEPT · MAKATI	ES-01	-	-	-	-	-	-	ABSENT	

2. View employee
time-in and time-
out records.

3. Use filters to sort by
branches, departments or
status or you can search a
specific employee.
